BONNEVILLE BOBBER

The Bonneville Bobber has absolutely peerless authenticity. A genuine Bonneville and factory custom Bobber that's both iconic and authentic. Stripped to its purest essence it delivers all the hallmarks of a real bobber, with clean lines and low stance, single seat, wide flat bars, minimal bodywork, wide rear wheel and that all important hard tail look.

A unique chassis, suspension and frame deliver a supremely confident, dynamic and comfortable ride. All electronic components are hidden from view so as not to compromise the bike's clean lines, and both the seat and clock position can be adjusted to suit the rider for class-leading comfort and control.

At the heart of the Bobber is a category-leading, high-torque (HT) Bonneville 1200cc engine with a dedicated Bobber tune for even more torque and power low down, and a beautiful brushed stainless steel exhaust with twin skin 'slash cut' peashooter silencers.

ACCESSORIES

We are obsessed with creating the best motorcycles in the world. Ones that bring the best out of every single rider. And the only person that can improve on what we do, is you. That's why we have created an extensive range of accessories for you to fine tune your bike to suit your ride. From styling to performance, luggage to protection, you'll find our complete range within the Accessories Catalogue. You can even see how your accessories change the look of your bike by using our industry-leading configurator. Whichever you choose, all Triumph Accessories are developed in conjunction with the bike itself. They go through a full testing and development process to ensure the highest levels of quality, reliability and safety.

CLOTHING

Our desire to get the most out of every ride applies as much to our clothing as it does to our bikes. Every piece of Triumph clothing is designed to play a part with technical innovations in materials and design, focusing on style, safety and comfort. Designed and tested by people that ride to deliver a perfect fit.
