Racing DNA redefined with hybrid power

Mercedes-AMG GT 63 S E Performance

Engine & Battery	M177 4.0 liter V8 with 6.1 kWh Li-Ion battery
Engine cc	3982 cc
Power	470 + 150 kW 639 + 204 hp
Torque	1470 Nm
0-100 km/h	2.9 s
Top speed	316 kmph <small>* Electronically limited</small>
Transmission	AMG SPEEDSHIFT MCT 9G

The high performance Lithium Ion battery

Battery capacity **6.1 kWh**

Electric range **12 km**

Charging is via the **3.7 kW** on-board AC charger, at a charging station, wallbox or household socket.

AMG light display and illuminated door sills to greet

AMG light display*

AMG illuminated door sills

* Designo feature

Convenience uncompromised with power closing doors

The power closing function closes your doors smoothly and almost silently. For this you **only need to close the door as far as it starts to engage** – and your vehicle will take over the rest for you.

AMG Rear-axle steering

The AMG rear axle steering combines attributes which are not normally combinable: *driving safety and comfort* as with a long wheelbase, yet the *agility of a vehicle* with a short wheelbase.

As a result, at speeds of *100 km/h and over*, the rear wheels steer by up to **0.5°** in the *same direction* as the front wheels

At speeds *below 100 km/h* the rear wheels steer in the *opposite direction* to the front wheels – **up to 1.3°** counter to the front axle angle

AMG RIDE CONTROL+ suspension

The particularly sportily tuned **AMG RIDE CONTROL+** suspension combines the advantages of several suspensions in one. The **multi-chamber air suspension** offers a very broad spread between the most comfortable and most sporty set-up and adapts to the given load.

The damping at each wheel is adapted to the current driving situation and road surface condition

The result - markedly noticeable change in vehicle characteristics ranging from comfortable to very sporty via **AMG DYNAMIC SELECT**

Interior comfort

- Ambient Lighting in **64** colours
- Thermatic automatic **climate control** for Individual climate comfort in the **front seats**
- Air balance package provides an **individual fragrance experience** in the interior
- Heated **front** seats

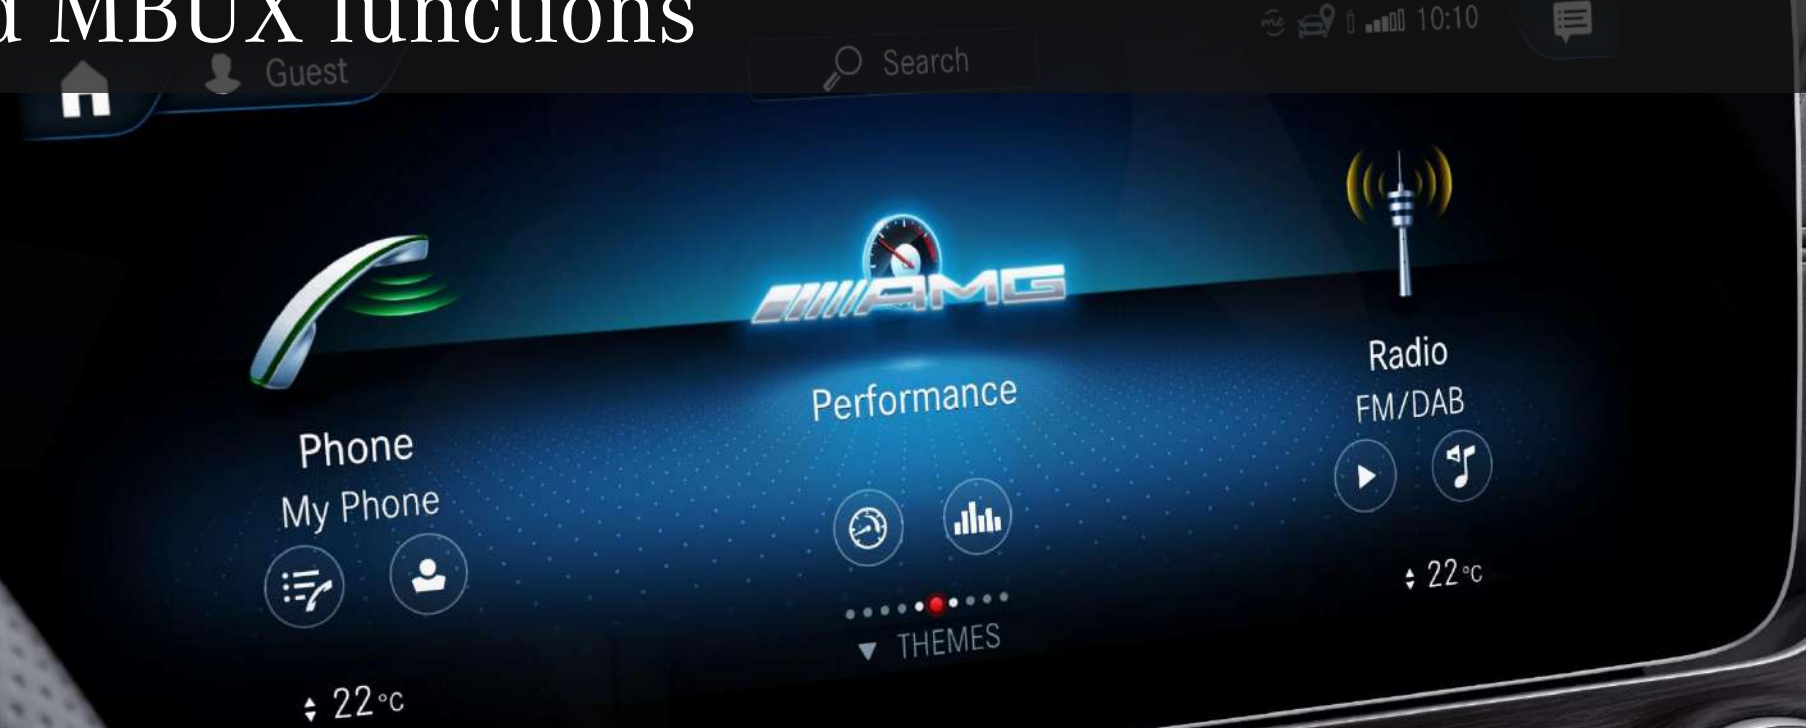

Burmester® surround sound system

14 high performance speakers

640 watts total system output

Extended MBUX functions

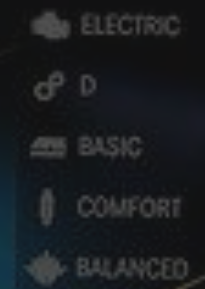

Create an emotional bond – a vehicle becomes your vehicle. Because the extended MBUX functions can be fully attuned to you. Say "[Hey Mercedes](#)", and your MBUX system awaits your commands. Personal profiles, predictive functions as well as a WiFi hotspot completely redefine the term digital networking.

7 different drive modes

- Slippy
- Individual
- Comfort
- Sport
- Sport+
- *Electric*
- Race

Drive modes explained

"**Electric**" driving mode: The focus is on the electric driving experience. All-electric driving is possible from standstill up to 130 km/h, with the combustion engine always switched off.

"**Comfort**" driving mode: the start-up is mostly electric. Combustion engine and electric motor run as demanded by the situation - with electric drive at low speeds

"**Sport**" driving mode: More boost from the electric motor is released. Sporty driving impression owing to more agile accelerator response, shorter shift times and earlier downshifts. A more dynamic suspension and steering setup.

"**Sport+**" driving mode: starting with combustion engine and electric motor and situational interaction of the two drives. Even higher boost performance. Extremely sporty character

"**RACE**" driving mode: for highly dynamic driving on closed race tracks.

"**Slippery**" driving mode: optimised for slippery road conditions

"**Individual**" driving mode: individual customisation of the drive, transmission, AMG DYNAMICS, chassis, steering and exhaust system.

Plethora of options for customization

A red Mercedes-AMG GT sports car is shown in motion on a racetrack. The car is viewed from a side profile, moving towards the left. The background is a blurred landscape of rolling hills under a clear sky. A semi-transparent red horizontal bar is overlaid across the middle of the image, containing the text 'Designo Packages'.

Designo Packages

State-of-the-art support systems with the Driving Assistance Package

The Driving Assistance Package provides your Mercedes-Benz with a wide range of sensors: cameras, radar and ultrasound monitor the surroundings.

The package includes features such as –

- Active Distance Assist DISTRONIC
- Active Steering Assist

Extraordinarily quiet interior with Acoustic Comfort Package

Special glass membranes, reinforced felts and additional insulation effectively help to reduce disruptive exterior noise.

A reflective membrane coating inhibits heating up caused by incoming sunlight.

In addition to [noise and heat-insulating advantages](#), the membranes integrated into the laminated safety glass also [increase break-in protection](#)

The image shows the rear passenger area of a Mercedes-AMG vehicle. The seats are upholstered in light-colored leather with a quilted pattern. The central console is visible, featuring a high-resolution touchscreen display. The AMG logo is visible on the headrests and the console. The overall interior is luxurious and modern.

High-Class rear suite

The [High-Class rear suite](#) complements the vehicle's outstanding performance with a particularly luxurious interior. Treat the rear passengers with [comfortable individual seats](#) and simple access to a comprehensive range of infotainment functions and comfort features

The [high-resolution touchscreen](#) displays the AMG logo to welcome your rear passengers aboard as well, and offers numerous exciting functions. Your passengers can [follow performance and vehicle data in real time](#), for example, for a direct insight into the vehicle's workings.

The Energizing package and Energizing package plus

Energizing Package – Ensures comfort for all the senses. This package bundles together special equipment with innovative intelligence. Your Mercedes is able to vitalise you in targeted ways – for prolonged alertness at the wheel and a pleasant drive. With up to **five comfort programmes and extras such as seat heating for driver and front passenger**.

Energizing Package Plus - Drivers who feel fit drive more attentively and those who can relax on a journey arrive more refreshed. This package provides with up to **eight comfort programs and exclusive extras such as multi-contour seats**.

AMG Night Package and AMG Night Package II

AMG Exterior Night Package

The striking design features in black and high-gloss black underscore expressive character of the vehicle. A special effect comes courtesy of the correspondingly painted front splitter and the black chrome-plated tailpipe trim elements.

AMG Night Package II

The AMG Night Package II is ideal for individualists who appreciate high-class design details. Features in high-gloss black turn your Mercedes-AMG model into a real eye-catcher.

AMG illuminated door sills

AMG Carbon Package and AMG Aerodynamics Package

AMG Carbon Package entails carbon-fibre detachable parts that enhance appearance from all angles. It consists -

- Carbon-fibre front splitter
- Trim element in the front wings in carbon fibre
- Carbon-fibre inserts in side skirts

AMG Aerodynamics Package entails the following components:

- Fixed rear aerofoil in high-gloss black
- Optimised diffuser, integrated in rear apron
- Extensively optimised front apron with larger front splitter
- Deflector elements at the side air outlets of rear wings
